# Top 20 Performances

## Procedures for Ranking Top 20 Performances

The list in this section is put together by ranking all performances at all meets throughout the history of Blue Valley Southwest

The Top 20 performances at any and all recorded meets will be put on this list. This provides any athlete the opportunity to have multiple performances on this list. Athletes DO NOT get multiple marks for prelims and finals. If a prelim performance is better than that of finals only the prelim performance will be counted in this section of the record book. Ultimately there will only be one performance mark per event. Relay splits DO NOT count for individual marks.

For hand timed events 400m and shorter an extra 0.24 (s) is added to account for delays in reaction time of clock operators compared to fully automatic timing. (This is a common practice in ranking athletes around the country)

Location refers to the meet that the performance occurred in. League and Regional meets may be held and many different tracks around the area.

## Top 10 Athletes

### Procedures for Ranking Top 10 Athletes

The list in this section is put together by ranking all the personal bests of every athlete in Blue Valley Southwest history.

To make this list an athlete must have a personal best in an event that would rank them in the top 10 of that event. Since this is based on personal bests an athlete can only be on a list once. An athlete can be on multiple lists. Only the fastest team and time will be recorded for relays. Prelims can count for personal bests if recorded. Ultimately there will only be one personal best mark per athlete regardless of what year it was performed. Relay splits DO NOT count for individual marks.

For hand timed events 400m and shorter an extra 0.24 (s) is added to account for delays in reaction time of clock operators compared to fully automatic timing. (This is a common practice in ranking athletes around the country)

Location refers to the meet that the performance occurred in. League and Regional meets may be held and many different tracks around the area.

# Top 5 Athletes By Class

## Procedures for Ranking Top 5 Athletes by Class

The list in this section is put together by ranking all the personal bests of every athlete in Blue Valley Southwest history along with ranking them by the grade of the athlete when it was performed.

To make this list an athlete must have a personal best in an event & in the specified grade that would rank them in the top 5 of that event. Since this is based on an athlete's best of the year they can only be on a list once for each grade. An athlete can be on multiple lists and for multiple events and/or grades. Prelims can count for personal bests if they are recorded. Ultimately there will only be one personal best mark per athlete for each grade/year. Relays are not recorded in this section. Relay splits DO NOT count for individual marks.

Only one relay record is recorded for each grade. A relay "grade" will be associated with the oldest member of the relay team. Ultimately the younger athletes become honorary members of the oldest relay member's grade. (Example: if a team consists of 3 freshmen and 1 junior, it will be kept as a junior record)

For hand timed events 400m and shorter an extra 0.24 (s) is added to account for delays in reaction time of clock operators compared to fully automatic timing. (This is a common practice in ranking athletes around the country)

Location refers to the meet that the performance occurred in. League and Regional meets may be held and many different tracks around the area.
